ROCK COUNTY GOVERNMENT

INTEROFFICE MEMORANDUM

TO: Rock County Planning and Development Committee

THROUGH: Paul Benjamin, Director, Planning & Development Agency

FROM: Planning & Development Agency Staff

SUBJECT: Change of Use Request for an existing Controlled Access point along E. CTH N in Milton Township (5428 E. CTH N)

DATE: June 20, 2013

Summary:

The owner of Parcel 6-13-72 (Don Van Altena) is requesting a Change of Use of an existing Joint Private/Field Entrance to a Joint Private Entrance/Private Entrance for a proposed residential lot along Access Controlled E. CTH N.

Section 17.18 of the County Trunk Highway Access Control states, "Any point of access permitted under this ordinance shall be subject to review and approval by the Rock County Transportation (Highway Committee) and the Rock County Parks, Planning and Zoning Committee, where these committees determine that there has been a change in use which will affect safe and efficient ingress and egress to, and use of a controlled access highway. This determination shall be based primarily on a significant change in the volume of traffic or type of vehicle using that point of access."

The Applicant has submitted a sketch plan indicating the creation of an approximately 5 acre lot from an Agriculture parcel (41 acres). The Applicant is seeking a change of use request to begin the process for this land division. The adjoining lot (Certified Survey Map Vol. 34 Pgs. 140-143) shares the access with the Agriculture parcel. This is a Joint Private Entrance/Field Entrance. The proposal would add potentially 10 traffic movements per day via the residential development. The resultant Joint Private Entrance/Private Entrance would potentially preclude larger and slower ag traffic from accessing the County Highway at this point. Therefore, the volume may go up but the type of traffic allowed would be an improvement. This can be facilitated at the time of Land Division review and approval with appropriate documentation limiting access use.

The remaining Ag land has frontage to the south on now STH 26 but, soon to be a local road once the new four lane STH 26 to the east opens.

Recommendation:

Staff recommends approval of the request conditioned upon limiting the Joint Private Entrance/Private Entrance access to those lots only.

AGENCY RECOMMENDATION

11. If you answered **Approve With Conditions to 10.**, list conditions:

- 3. Note on Final Map: "Since Lot 1 contains existing buildings which utilize an existing private sewage system
- 4. no soil evaluation on the lot was required at the time of this survey. Soils on the lot may be restrictive to the replacement of the existing system."
- 5. Proposed lot lines must include the system area with the building which utilizes the system.
- 6. Final CSM to be submitted to and approved by the Planning and Development Agency by June 27, 2014.
- 7. Certified Survey Maps that are subject to local approval must be recorded within 6 months of their last approval and 24 months of the first approval.
- 8.
- 9.
- 10.

12. Agency recommendation rationale and findings of fact:

The proposed new lot for the existing farm buildings will remain zoned A-1 with a Conditional Use Permit regulating development . The parent lot retains A-1 zoning with about 62 acres remaining. Splitting of farm buildings existing at the time of Farm Land Preservation Certification is consistent with program guidelines.

AGENCY RECOMMENDATION

11. If you answered **Approve With Conditions to 10.**, list conditions:

- 3. Note on Final Map: "Since Lot 1 contains existing buildings which utilize an existing private sewage system
- 4. no soil evaluation on the lot was required at the time of this survey. Soils on the lot may be restrictive to the replacement of the existing system."
- 5. Proposed lot lines must include the system area with the building which utilizes the system.
- 6. Final CSM to be submitted to and approved by the Planning and Development Agency one year after the date of Preliminary Approval.
- 7. Certified Survey Maps that are subject to local approval must be recorded within 6 months of their last approval and 24 months of the first approval.
- 8.
- 9.
- 10.

12. Agency recommendation rationale and findings of fact:

The proposed new lot for the existing farm buildings will remain zoned A-1 with a Conditional Use Permit regulating development . The parent lot retains A-1 zoning with about 80 acres remaining. Splitting off farm buildings existing at the time of Farm Land Preservation Certification is consistent with program guidelines.

EXECUTIVE SUMMARY

In the Federal Water Pollution Control Act Amendments of 1972, federal law created a process to establish locally developed area-wide water quality management plans. Area-wide water quality management planning was codified at the state-level through the development of Wisconsin Administrative Code NR121, which specifies that Area-wide water quality management plans include components that deal specifically with metropolitan sewer service areas and their projected needs for 20 years into the future.

The Wisconsin Department of Natural Resources (DNR) makes funding available to regional planning councils and county planning agencies throughout the state for sewer service area planning as it relates to ground water quality and environmentally sensitive areas.

On June 3, 2013, the Rock County Planning and Development Agency received a letter from DNR that contained an agreement to commit \$10,885 for the first year's planning for water quality in the Beloit area. The grant agreement shall commence upon its signing by both parties and continue until December 31, 2013 and grantee may claim eligible costs for reimbursement for work conducted between January 1, 2013 and the end of the grant agreement, and

The last update of the Beloit Area Sewer Service Area Plan was in 1998, and it does not serve current planning needs. Representatives from the Towns of Turtle, Beloit, and Rock, and the City of Beloit have agreed to provide representatives to a Technical Advisory Committee that will oversee the planning process.

SUMMARY OF PROPOSED WORK

Clearance and sample testing for work and property proposed for Village of Orfordville CDBG project 0002. State CDBG program administrators have stated it is highly desirable to conduct a lead hazard control clearance for all properties that receive CDBG funds in which painted surfaces are disturbed.

The funds will be made available in the form of a grant and will not require repayment.

Rehabilitation items included siding & windows.
