	ACCOUNT #: DESCRIPTION:	
	ACCOUNT #: DESCRIPTION:	
	ACCOUNT #: DESCRIPTION:	

REASON FUNDS ARE AVAILABLE FOR TRANSFER - BE SPECIFIC:

#61100: There were 2 public health nurse vacancies due to resignations earlier in 2012, providing additional funds in the regular wages expense line item.

#62119: The Beloit sublease from Nutrition & Health Associates was discontinued as of 7/31/12, providing additional funds in the Other Contracted Services expense line item.

#62503: One of the health department's staff persons is performing most of the department's interpreting services, so the department is not having to pay extra fees for this service.

REASON TRANSFER IS NECESSARY - BE SPECIFIC:

There has been a high demand for the shingles vaccine throughout 2012, and this is expensive vaccine. Also, the changes in the Vaccines for Children program have required the health department to purchase more vaccine than had been required in previous years, creating more expense for this line item. The department has also had to replenish related medical supplies such as syringes, exam gloves, sharps disposal containers, etc. in order to be able to continue providing immunizations for the citizens of Rock County.

Environmental Health Professionals, including Registered Sanitarians and Environmental Health Technicians provide services necessary for the promotion of life, health, and well being of the citizens of Rock County; and

Environmental Health Professionals at the Rock County Health Department have demonstrated expertise in food and water protection, reduction of health and safety hazards in private and public places, and promoting practices in the community that prevent illness, enhance public health and improve the quality of life; and

November 12, 2012 has been declared Environmental Health Professional Day at the Rock County Health Department.

Therefore, on the 1st day of November, the Rock County Board of Health expresses its gratitude and appreciation to the Rock County Environmental Health Professionals for the efforts they put forth in protecting the health and safety of Rock County citizens.

Sandra Kraft, Chair

Louis Peer, Vice Chair

Richard Bostwick, Supervisor

Mike Rundle, Supervisor

Dr. Dean Peterson, DVM

Dr. Connie Winter, DDS

Dr. Aaron Best, MD

Judy Wade, WHNP

James Rooney, R.Ph

Karen Cain, Health Officer

Tim Banwell, Environmental Health Director.

Health education provided by a Health Educator improves the health status of individuals, families, communities in Rock County; and

Health education enhances the quality of life for all people by promoting health and preventing disease; and

By focusing on prevention, health education reduces the costs (both financial and human) that individuals, employers, and families, would spend on medical treatment; and

November 12, 2012 has been dedicated as Health Educator Day at the Rock County Health Department.

Therefore, on the 1st day of November, the Rock County Board of Health expresses its gratitude and appreciation to the Health Educators for the efforts they put forth in protecting the health and safety of Rock County citizens.

RESOLUTION

ROCK COUNTY BOARD OF SUPERVISORS

Lori Bienema
INITIATED BY

Pancreatic Cancer Action Network
DRAFTED BY

Board of Health
SUBMITTED BY

October 12, 2012
DATE DRAFTED

DECLARING THE MONTH OF NOVEMBER "PANCREATIC CANCER AWARENESS MONTH" IN ROCK COUNTY

- 1 **WHEREAS**, in 2012, an estimated 43,920 people will be diagnosed with pancreatic cancer in the
2 United States and 37,390 will die from the disease; and,
3
- 4 **WHEREAS**, pancreatic cancer is one of the deadliest cancers, is the fourth leading cause of cancer
5 death in the United States, and is the only major cancer with a five-year relative survival rate in the
6 single digits at just six percent; and,
7
- 8 **WHEREAS**, when symptoms of pancreatic cancer present themselves, it is usually too late for an
9 optimistic prognosis, and 74 percent of pancreatic cancer patients die within the first year of their
10 diagnosis while 94 percent of pancreatic cancer patients die within the first five years; and,
11
- 12 **WHEREAS**, of all the racial/ethnic groups in the United States, African Americans have the highest
13 incidence rate of pancreatic cancer, between 34 percent and 70 percent higher than the other groups;
14 and,
15
- 16 **WHEREAS**, approximately 760 deaths will occur in Wisconsin in 2012; and,
17
- 18 **WHEREAS**, there is no cure for pancreatic cancer and there have been no significant improvements in
19 survival rates in the last 40 years; and,
20
- 21 **WHEREAS**, the Federal Government invests significantly less money in pancreatic cancer research
22 than it does in any of the other leading cancer killers; and pancreatic cancer research constitutes only
23 approximately 2 percent of the National Cancer Institute's federal research funding, a figure far too
24 low given the severity of the disease, its mortality rate, and how little is known about how to arrest it;
25 and,
26
- 27 **WHEREAS**, the Pancreatic Cancer Action Network is the first and only national patient advocacy
28 organization that serves the pancreatic cancer community in Rock County and nationwide by focusing
29 its efforts on public policy, research funding, patient services, and public awareness and education
30 related to developing effective treatments and a cure for pancreatic cancer; and,
31
- 32 **WHEREAS**, the Pancreatic Cancer Action Network and its affiliates in Rock County support those
33 patients currently battling pancreatic cancer, as well as to those who have lost their lives to the disease,
34 and are committed to nothing less than a cure; and,
35
- 36 **WHEREAS**, the good health and well-being of the residents of Rock County are enhanced as a direct
37 result of increased awareness about pancreatic cancer and research into early detection, causes, and
38 effective treatments; therefore be it.
39
- 40 **NOW, THEREFORE, BE IT RESOLVED** that the Rock County Board of Supervisors duly
41 assembled on this _____ day of _____, 2012, does hereby designate the month of
42 November 2012 as "Pancreatic Cancer Awareness Month" in Rock County.

Respectfully submitted,

DECLARING THE MONTH OF NOVEMBER "PANCREATIC CANCER AWARENESS MONTH" IN ROCK COUNTY

“Healthful Hint” Monthly Health News Column

National Farm to School Month

If childhood obesity continues to rise, children today are likely to live shorter lives than their parents, report experts at the New England Journal of Medicine. This is why we cannot wait to address childhood obesity in Rock County. The *Transform Rock County* coalition is working together with leaders in a variety of sectors to reduce childhood obesity in our community.

Health begins where we live, work, learn and play. Practicing good eating habits is one way to live a healthier lifestyle. Our community can help children eat healthier by providing locally grown fruits and vegetables to them at school. This program is called Farm to School. Our schools are a great place to start introducing children to locally grown produce because they eat up to 40 percent of their daily calories during the school day. Kids in Farm to School programs eat 20 percent more fruits and vegetables. Children will learn better if they have nutritious, fresh food options for school meals and snacks.

Over 100 Wisconsin schools have these programs, and many more food service directors want to use local food, but they lack the resources to start or expand their program. The *Transform Rock County* coalition is excited to begin implementing Farm to School programs in school districts across Rock County. *Transform Rock County* will partner with school food service directors to provide the resources necessary to start or expand their programs.

Farm to School is a “win-win-win” for our community. Children win, schools win, and farmers and our community win!

Children Win!

- Fresh fruits, vegetables and other healthy foods help reduce childhood obesity.
- Children at schools with Farm to School programs are more likely to eat fruits and vegetables at lunch.
- Farm to School improves students’ attitudes about fruits and vegetables, building a foundation for lifelong healthy habits.

Schools Win!

- Overall, schools have increased meal participation as much as double when farm-fresh food is served, bringing in more funds.

ROCK COUNTY HEALTH DEPARTMENT

608-364-2011 (fax)

- Local produce can cost less than highly processed foods currently delivered to schools.
- Local farm prices tend to fluctuate less than prices from distant markets.

Farmers and Communities Win!

- Schools provide local farmers with new or expanded markets.
- Money stays in the local economy.
- The variety of local crops produced can increase, creating opportunities for community economic development.

If you are interested in learning more about *Transform Rock County* and local Farm to School initiatives, please sign up to receive our regular coalition updates. You can sign up via the online form at www.co.rock.wi.us/health. We look forward to working with all Rock County residents to make the healthy choice the *easy choice* in our community.
