AGENCY RECOMMENDATION

11. If you answered Approve With Conditions to 10., list conditions:

- 4. Dedicate 33 foot half road right of way along N Butler Rd at the discretion of the Town of Plymouth.
- 5. The final CSM shall indicate a potential building site for each lot consistent with... (continued to line six)
- 6.Town of Plymouth and Rock County Ordinances as referenced below.
- 7. Final CSM shall be submitted to and approved by the Agency within one year after preliminary approval.
- 8. Final CSM shall be recorded with the Rock Co. Register of Deeds within 6 months of the final approval.
- 9.
- 10.
- 11.

12. Agency recommendation rationale and findings of fact:

The proposed Land Division creates three new lots (roughly 10 acres in size each) from an existing 31.2 acre parcel (6-16-108.2) in Plymouth Township.

The parent parcel is currently zoned Agriculture (A2) by the Town of Plymouth and the future land use for the parcel is Agriculture, Woodland and Scattered Residential. This property is within a planned Farmland Preservation Area considering each of the agriculturally zoned districts in the Town are certified by DATCP for the program.

The existing parcel includes continuous woodland area greater than 5 acres which should be preserved according to the standards of the Rock County Land Division and Management Ordinance. If building is proposed on the lots in the future, the Town and/or P&D Committee could consider placing a deed restriction on the lots which would limit the options for a building site. The goal of the deed restriction would be to not "significantly degrade or deplete, or compromise the function or integrity, of any cultural resources, productive agricultural soils or woodlands" (Section 4.109 (4) of County Ordinance). The Memorandum of Agreement between the Town and County includes provisions for Staff to make recommendations in this regard where applicable based on site characteristics.

AGENCY RECOMMENDATION

11. If you answered Approve With Conditions to 10., list conditions:

- 4. Note on Final GSM: "Lot 1 contains existing buildings which utilize an existing private sewage system at the time of this survey. However...
- 5. ...solls on the lot may be restrictive to the replacement of the existing systems."
- 6. Proposed lot lines must include the system area with the building which utilizes the system.
- 7. Approval is conditioned on approval of a rezone by the Town of Porter and the associated standards of the Porter Zoning Ordinance.
- 8. Final CSM shall be submitted to and approved by the Agency within one year after preliminary approval.
- 9. Final CSM shall be recorded with the Rock Co. Register of Deeds within 6 months of the final approval.
- 10.
- 11.

12. Agency recommendation rationale and findings of fact:

The proposed Land Division creates two new 1 acre lots from an existing 94 acre parcel (6-16-177) in Porter Township. There is an existing residence and buildings on Lot 1. Lot 2 is vacant and is intended to be used for a new building site.

The property is currently Zoned A-E - Exclusive Agriculture by the Town of Porter. As part of this proposal, the Town will consider a rezone to Ag General (A-G) for proposed Lots 1 and 2 based on the provisions in the Zoning Ordinance and the standards of the Farmland Preservation Program. Creation of a new buildable lot in this District requires a deed restriction on a portion of the remaining land restricting future development.

AGENCY RECOMMENDATION

11. If you answered Approve With Conditions to 10., list conditions:
- 3. Proposed lot lines must include the POWTS area with the building which utilizes the system.
 - 4. Comply with the standards in the Town of Fulton Zoning Ordinance related to creating a new lot in the AG Zoning District.
 - 5. Dedicate a 33 foot half road right of way along N Dallman Rd at the discretion of the Town of Fulton.
 - 6. Final CSM shall be submitted to and approved by the Agency within one year after preliminary approval.
 - 7. Final CSM shall be recorded with the Rock Co. Register of Deeds within 6 months of the final approval.
 - 8.
 - 9.
 - 10.

12. Agency recommendation rationale and findings of fact:

The proposed Land Division creates one new 4.3 acre lot from an existing 49 acre parcel (6-6-34) in Fulton Township. The purpose of the division is to separate the existing building site on the property from the larger parcel. The remaining parent property is greater than 35 acres, therefore it is not required to include it as part of the Certified Survey Map.

As part of this proposal, the Town of Fulton will consider rezoning the area of proposed Lot 1 to Rural Residential Large (3-10 acres) from the AG Zoning based on the provisions in the Zoning Ordinance. The AG District is not certified for the Farmland Preservation Program.

This land division is within the extraterritorial review jurisdiction of the City of Edgerton.

AGENCY RECOMMENDATION

11. If you answered Approve With Conditions to 10., list conditions:
- 3. Proposed lot lines must include the POWTS area with the building which utilizes the system.
 - 4. Comply with the standards in the Town of Lima Zoning Ordinance related to creating a new lot in the A1 Zoning District.
 - 5. Dedicate a 33 foot half road right of way along N Sturtevant Rd at the discretion of the Town of Lima.
 - 6. Final CSM shall delineate the approximate water line based on the 2020 air photo.
 - 7. Final CSM shall be submitted to and approved by the Agency within one year after preliminary approval.
 - 8. Final CSM shall be recorded with the Rock Co. Register of Deeds within 6 months of the final approval.
 - 9.
 - 10.

12. Agency recommendation rationale and findings of fact:

The proposed Land Division creates one new 5.0 acre lot from an existing 96.5 acre parcel (6-11-306) in Lima Township (lot size presumes the Town will require a road right of way dedication). The purpose of the division is to separate the existing building site on the property from the larger parcel. The remaining parent property is greater than 35 acres, therefore it is not required to include it as part of the Certified Survey Map.

As part of this proposal, the Town of Lima will consider rezoning the area of proposed Lot 1 to A3 (3-10 acres) from the A1 Zoning based on the provisions in the Zoning Ordinance. The A1 District is certified for the Farmland Preservation Program, therefore the Town should consider the standards in the Ordinance to justify a rezone from the FPP District.

A majority of the area of Lot 1 is currently inundated with a high ground water table, something that has been occurring periodically on an annual basis since 2010 based on air photos. If this was a vacant lot intended to be utilized as a new building site, approval would likely not be granted. Since there is an existing residence with an existing POWTS, creating the lot even in light of the current physical conditions is a more reasonable approval under the standards of the Ordinance. Delineating the 2020 water line on the CSM will also provide notification to future owners of potential for high water if water levels drop in the future.

AGENCY RECOMMENDATION

11. If you answered Approve With Conditions to 10., list conditions:

- 4. Note on Final CSM: "Impervious surfaces, including buildings and other ground cover, shall be limited to 12.5 percent of...
- 5. ...the area of Lots 1 and 2. Exceptions may be permitted by the Town of Rock if storm water plan is developed."

- 11.

12. Agency recommendation rationale and findings of fact:

The proposed Land Division creates two new lots from an existing 2.25 acre parcel (6-17-222) in Rock Township. Lot 1 will be approximately 1.25 acres and Lot 2 will be approximately 1.0 acres. The parent parcel is currently zoned R-1 by the Town of Rock and no zoning change will be necessary based on the proposed lot sizes.

The parent parcel was entirely wooded as recently as of 2016 based on air photos. In preparation of development, the lot as been nearly entirely cleared by the current and/or past owners. This landscape change along with the fact there is minimal road ditches in the neighbor leads to concern about how increased impervious surfaces could adversely impact neighboring property owners. Based on topographic data, the general surface water flow is toward the west and southwest from the subject property. Current snow covered ground makes it not possible to completely evaluate the existing site conditions in the neighborhood and make recommendations in this regard.

The Town's R1 Zoning Ordinance includes limits on the amount area of the lot that can be developed with buildings. In unsewered areas like this, it is 12.5%. Considering the circumstances, it is suggested that the 12.5% limit include all impervious surfaces, not just building rooftops. Doing so will limit the impact of future development on the surrounding properties. Alternatively, if greater than 12.5% of the lot is covered with impervious surfaces, a storm water management plan could be considered by the Town as part of the building permit process.
