Executive Summary

Awarding the Contract for the Installation of an In-Building Distributed Antenna System at UW Rock County Campus

The resolution before you approves contracting with the lowest, most responsive and responsible bidder, Telamon of Lake Geneva WI, in the amount of \$157,980 for the installation of an in-building distributed antenna system at UW Rock County Campus.

This also approves a 10% (\$15,000) contingency fund. Funds were included in the 2018 budget and bids were solicited with three contractors responding. This is part of the security mass notification system that was installed to send out notices to all students and staff of any security incident. The full function of the mass notification system requires cell phone signals. A signal survey was conducted to map out the cell phone signal throughout the entire campus. The survey showed no signal was available throughout.
