Executive Summary

The HEAR Community Engagement Project is a results-driven effort, which will be led by the Health Equity Alliance of Rock County (HEAR). The HEAR Community Engagement Project is a proactive effort, that will actively embrace diverse community engagement, to improve the health of communities most affected by inequities. By providing the basis for discussion and action, the Community Health Assessment (CHA) is the foundation for improving and promoting the health of community members. Through active community engagement, factors that affect the health of a population are identified and availability of resources is determined within the community to adequately address these factors.

The HEAR Community Engagement Project will ensure the community voice will be reflected in the 2017-2020 Rock County Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP), ensuring population-wide interventions are developed to address disparities among subpopulations. In addition to the 2017 CHA and CHIP reports, through the Change Incubator Funding HEAR will produce a supplemental, storytelling report titled, "Community Conversations: Real Stories in Rock County" based on the findings from the HEAR Community Engagement Project. By ensuring that the needs of the populations are reflected in CHA and CHIP the HEAR Community Engagement project will work to make Rock County a healthier place for all to live, work, learn, and play. This grant will serve to improve the health of Rock County.
